## PROFESSIONAL SUMMARY

Dedicated Frontend Developer with a strong academic foundation, achieving 75% in Class 12th and still not completing BCA. Currently excelling in a dynamic role, leveraging expertise in front-end development to contribute innovative solutions in a private company. Eager to combine academic knowledge with practical skills to drive excellence in web development projects.

## EDUCATIONAL BACKGROUND

12th std -2012

completed with 75%

### ALAGAPPA UNIVERSITY,KARAIKUDI

BCA 2013-2015

Not Completed

### GUVI

MERN Stack development

2023

## SKILLS

- HTML
- CSS
- JAVASCRIPT
- BOOTSTRAP
- REACT JS
- NODE JS
- MYSQL
- MONGO DB

## PROFESSIONAL EXPERIENCE

### Front-end developer at 5way It Zone, Karaikal.

2020-2022

- Developed and maintained responsive and user-friendly web applications. Collaborated with cross-functional teams to implement design concepts and ensure seamless integration with backend systems.

## MY PROJECTS

### ORTHOCARE WEBSITE

- Replicated the frontend design of [www.orthocarebh.org](http://www.orthocarebh.org) using HTML, CSS, and Bootstrap.
- Ensured the site's responsiveness and user-friendly design for optimal user experience.
- Deployed the replicated website at <https://orthocarebahrain.netlify.app/>.

### MRITHU PHARMACY WEBSITE

- Spearheaded the front-end development for [www.mrithupharmacy.com](http://www.mrithupharmacy.com), a leading pharmacy based in Bahrain.
- Transformed design concepts into a visually appealing and user-friendly website using cutting-edge front-end technologies such as HTML, CSS, and JavaScript.
- Implemented responsive design principles, ensuring seamless user experiences across various devices.

### Dynamic Portfolio With Export To PDF

- Created a full-stack Dynamic Portfolio for GUVI certification using the MERN stack—MongoDB, Express.js, React.js, and Node.js. Developed an engaging frontend deployed at <https://dynamicportfolio.netlify.app/>, and a robust backend at <https://dynamicportfoliobackend.onrender.com/>. Collaborated on seamless integration, implementing innovative features, and delivered a high-quality, fully functional portfolio showcasing expertise in both frontend and backend development.

### 5way Website

- Currently working on the "5way Website" project, a recent client request. Deployed the backend on Render at <https://fiveway-backend.onrender.com> and the frontend on Netlify, accessible at <https://5waymart.netlify.app/>. The static site includes a form where, upon user submission, automated emails are generated for both the user and the site owner. This project demonstrates my proficiency in developing dynamic web solutions with backend functionality and interactive frontend features.
